# WELCOME TO OUR 23RD ANNUAL SPRING RAM SALE

We are pleased to welcome you our 23rd Annual Spring Ram Sale. It has been a busy 6 months since the February sale with the new state-of-the art shearing & classing shed with on-site access to real-time Sheep Genetics data now complete.

The line-up of high-performance White Suffolk and Suffolk rams on offer in October represent another step forward in our breeding and performance recording program.

With our focus on lambing ease, low birth weights with high growth and positive fat, and traits like lean meat yield and intermuscular fat through DNA testing, we are confident buyers will find a ram to fit their prime lamb operations this year.

Gemini introduced DNA testing six years ago but we have intensified the program over the past few years to further improve on meat-eating traits whilst maintaining the stud's high performance benchmarks for all other traits, including lower birth weight and high growth.

Our commitment on improving birthweights, lamb survival, our ASVBs, and breeding structurally correct, strong, robust rams ensures our clients get the maximum number of live lambs on the ground.

Sire groups of the October sale rams include a new line of American Suffolk genetics used in our ET program. These Suffolk sires present a very different bloodline and a different style of sheep.

Progeny by Gemini 170470, one of the leading performance White Suffolk rams in Australia is also a sale highlight. Gemini Prime Lamb sold 170470 to Bundarra Downs but we have retained this sire's semen and expect strong interest in his sons.

Buyers can be assured of the Gemini's health status with all rams' brucellosis accredited, MN3 and vaccinated for Johnne's disease.

Our stud is very particular about the health status of our sheep. We're basically a quarantine farm – only sheep with the same health status come on our property.

We look forward to seeing you on sale day and welcome inspections of any of our sale rams by private appointment.

Craig, Chloe & Emily Mitchell

# SUPERWHITES

Gemini White Suffolk stud is a member of the Superwhites genetic improvement group of breeders who are focused on producing White Suffolk rams that contain the best genetics for prime lamb production.

The group has been in operation across Australia since 1995 and collectively produces around 3,000 rams annually.

Superwhites uses LAMBPLAN as a tool to aid in comparison of sheep across flocks as well as identifying the best genetics in Australia for use within the group.

The group foster excellent data quality with most members achieving Gold status, the highest data quality standard within Lambplan.

By using link sires and progeny testing a young sire team each year, Superwhites flocks have strong across flock links, meaning that the LAMBPLAN evaluation within Superwhite flocks is more accurate.

Superwhites members are improving their genetics faster than the average of all terminal sire breeds for all commercially important traits.

# GEMINI PRIME LAMB SIRES - AN INTRODUCTION

Gemini White Suffolk stud was established in 1993 by introducing White Suffolk rams to put over ewes from our previously registered Suffolk stud.

We have always maintained a strong focus on commercial attributes relevant to industry demands and client profitability.

Selection for higher growth and carcase yield through increased muscling improves productivity, while selection for easy care shape and sound structure results in lower costs and more live lambs on the ground.

We use a combination of visual classing and high performance selection through Lambplan to produce some of the highest quality and performing prime lamb genetics available in today's meat sheep industry.

**Semen:** Stud ram purchasers please note that Gemini maintains semen rights in all stud rams sold. This is for our possible within flock use only. Any semen that has not already been collected will be collected at our expense and the purchaser's convenience. Please contact us if you need further clarification.

**Registration:** In relation to rams purchased for stud breeding and registration, to protect our genetic integrity we will only be transferring and registering rams at our discretion, subject to price and quality. Please consult prior to making any such purchasing decisions.
