2021 Top Priced Ram - Lot 1, G
200361 - sold for \$18,000, with
Chloe Mitchell, Michael Glasser, Ray
White GTSM, Emily Mitchell with
principal Craig Mitchell.

WELCOME TO OUR 27TH ANNUAL SPRING SALE

Welcome to our 27th Annual Spring Sale. We are pleased to present a great line-up of 2024 drop White Suffolk ram lambs with Gemini-bred sires featuring heavily in this year's sale draft.

The 8 Specially Selected ram team offers astute buyers a range of superior genetics for those looking to add something extra to their flock.

We are pleased Gemini bred rams continue to have above average terminal ASBV's and a number who sit in the top 5% with their performance data backed by genomics.

Yearly DNA testing helps the stud build the accuracy of its breeding values and meat-eating traits such as IMF and Shearforce.

Gemini's breeding focus doesn't change – we aim to produce low birthweight sheep with lambing ease, sheep who are fast growing and structurally correct with heavy yielding carcass.

Despite some recent price movement in the lamb market, we are confident the long-term general outlook for red meat is very positive with the future favorable to those producers who are chasing the right profit drivers, as well as quality and quantity.

We look forward to seeing you on sale day and welcome inspections of any of our sale rams by private appointment.

Craig, Chloe & Emily Mitchell

27TH ANNUAL SPRING SALE

MONDAY 6TH OCTOBER 2025

AUCTION LIVE FROM 12.30PM

INSPECTIONS AVAILABLE BY PRIVATE APPOINTMENT
OR FROM 10.30AM SALE DAY.

WHITE SUFFOLK RAMS

Structurally Correct Performance Rams

AUCTIONSPLUS

IF YOU ARE BIDDING VIA AUCTIONSPLUS, PLEASE REGISTER ONLINE TO BUY ON SALE DAY

Preparing for auction day is simple and can be done in 6 easy steps.

1. Ensure you pre-register online with AuctionsPlus at least 3 days prior to the sale at **www.auctionsplus.com.au** - If you need assistance, please call AuctionsPlus on 02 9262 4222. There is a buyer induction on the website to help you understand the roles and responsibilities of everyone on the AuctionsPlus system.
2. View the Gemini Sale Catalogue. View photos, videos, pedigrees and more.
3. Identify the Lots that interest you.
4. View the Gemini Sale live on AuctionsPlus website – Wednesday 7th February at 12.30pm AEDT.
5. On Sale Day you can bid from any location with good internet connection.
AUTO BID – Can't stay the whole sale. Set your maximum bid on the lot you wish to purchase & let the computer bid for you.
6. Successful purchasers will be contacted at the completion of the sale by GTSM.
TERMS - Please see Page 4 for details.

SUPERWHITES

Gemini White Suffolk stud is a member of the Superwhites genetic improvement group of breeders who are focused on producing White Suffolk rams that contain the best genetics for prime lamb production.

The group has been in operation across Australia since 1995 and collectively produces around 3,000 rams annually.

Superwhites uses LAMBPLAN as a tool to aid in comparison of sheep across flocks as well as identifying the best genetics in Australia for use within the group.

The group foster excellent data quality with most members achieving Gold Status, the highest data quality standard within Lambplan.

By using link sires and progeny testing a young sire team each year, Superwhites flocks have strong across flock links, meaning that the LAMBPLAN evaluation within Superwhite flocks is more accurate.

Superwhites members are improving their genetics faster than the average of all terminal sire breeds for all commercially important traits.

GEMINI PRIME LAMB SIRES - AN INTRODUCTION

Gemini White Suffolk stud was established in 1993 by introducing White Suffolk rams to put over ewes from our previously registered Suffolk stud.

We have always maintained a strong focus on commercial attributes relevant to industry demands and client profitability.

Selection for higher growth and carcase yield through increased muscling improves productivity, while selection for easy care shape and sound structure results in lower costs and more live lambs on the ground.

We use a combination of visual classing and high performance selection through Lambplan to produce some of the highest quality and performing prime lamb genetics available in today's meat sheep industry.

Semen: Stud ram purchasers please note that Gemini maintains semen rights in all stud rams sold. This is for our possible within flock use only. Any semen that has not already been collected will be collected at our expense and the purchaser's convenience. Please contact us if you need further clarification.

Registration: In relation to rams purchased for stud breeding and registration, to protect our genetic integrity we will only be transferring and registering rams at our discretion, subject to price and quality. Please consult prior to making any such purchasing decisions.

Delivery: Gemini Prime Lamb Sires will deliver Rams free of charge to anywhere within 200km of our Werneth property.

COMMERCIAL RAM BUYERS GUIDE TO GENETIC SELECTION

What are Australian Sheep Breeding Values?

Australian Sheep Breeding Values (ASBVs) can be used to compare the genetic differences between animals for a range of important traits. Performance data, pedigree, and genomic data inform an animal's ASBVs, with ASBVs also being adjusted for known non-genetic impacts on performance. ASBVs provide an indication of how an animal's progeny will perform based on the genes an animal has, allowing you to compare the genetic differences between rams, enabling for informed selection decisions. It's important to set a breeding objective prior to sale and to track your flock's performance.

What is an index?

Indexes combine multiple traits (i.e., growth, reproduction, carcass, and wool) into a single value to describe an animal's economic value based on its relative importance to a specific production system.

Indexes are a useful ranking tool within a catalogue, once sorted using an index it is important to look at individual ASBVs within your breeding objective. For more information on ASBVs and indexes scan the QR code.

TERMINAL PERCENTILE BAND

What is a Percentile Band and how to use it?

Percentile bands are used within Sheep Genetics to benchmark where an individual animal is sitting for a trait relative to industry. For the most up to date ASBVs and Percentile Bands visit the Sheep Genetics website, as they are updated every 2 weeks. On the Sheep Genetics search site, animals are highlighted based on the top 5 (purple), 10 (blue) and 20% (green) for each trait in the analyses.

Within our catalogue, animals are highlighted keeping inline with the Sheep Genetics website with the inclusion of the top 1% of traits being highlighted as well:
